## Baby Powder

### Ingredients:

Aqua, Disodium Laureth Sulfosuccinate, Disodium Cocoamidopropyl Betaine, PEG-200 Hydrogenated Glyceryl Palmate, PEG-7 Glyceryl Cocoate, Polyquaternium-7, Polysorbate-20, Parfum, Lactic Acid, Allantoin, Panthenol, Methylisothiazolinone, Methylchloroisothiazolinone, Tocopheryl Acetate.

### Product Description:

Twiny Baby Powder is formulated to keep babies' skin free from irritation and redness. It can easily be applied after bathing and at every diaper change, keeping the baby's skin dry and healthy. Twiny Baby Powder leaves a soft and fresh feeling on the baby's skin.

### How to use?

Shake baby powder directly into your hand, away from the face, before smoothing onto skin. Perfect for use after a warm bath and diaper change to help skin feel soft, fresh and comfortable. Close container tightly after each use, and store in a cool, dry place.

### Warnings:

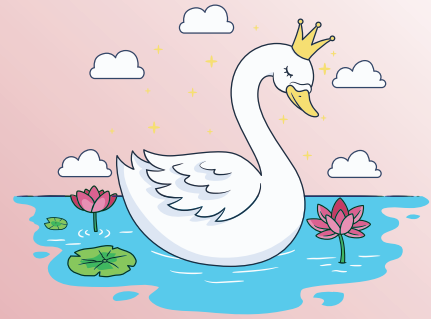

- Use only as recommended.
- Avoid contact with eyes.
- In case of contact with eyes, rinse with water.
- Do not swallow.
- Keep out of reach of children.

Clinically proven mildness formula, is designed for baby's delicate skin

150 g e

## Baby Oil

### Ingredients:

Paraffinum Liquidum, Isopropyl Myristate, Prunus Amygdalus Dulcis Oil, Parfum.

### Product Description:

Gently massage the whole body with baby oil to leave skin soft and smooth.

### How to use?

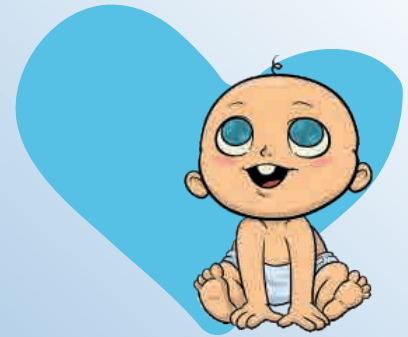

Apply a pea sized blob of gel (see circle shown above), to a clean fingertip and spread gently onto the sore area of the gum. If necessary, repeat the dose after 3 hours.

### Warnings:

- Use only as recommended.
- Avoid contact with eyes.
- In case of contact with eyes, rinse with water.
- Do not swallow.
- Keep out of reach of children.

200 ml e

## Baby Teething Gel

### Ingredients:

Deionized Water, Cellulose Gum, Clove Oil, Sorbitol, Phenoxyethanol and Ethylhexylglycerin, Aloe Barbadensis, Leaf Juice.

### Product Description:

Teething Gel is a gel that prevents the formation and transmission of neural impulses in the cell membrane, providing regional numbness and preventing the formation of microbes. It is used to help relieve pain and discomfort associated with teething in children aged 5 months and over, where other non-medical methods such as massaging the gums or using teething rings have lost their effect. Teething Gel helps to reduce itching and relax the root of the teeth by providing regional relief with the clove oil component.

### How to use?

Apply a pea sized blob of gel (see circle shown above), to a clean fingertip and spread gently onto the sore area of the gum. If necessary, repeat the dose after 3 hours.

### Warnings:

- Do not use more than 6 times in one day (24 hour period).
- Stop treatment when your child's symptoms settle.
- Do not use for more than 7 days for each teething episode.
